

## HD672

### COMPOSITE MATERIAL SEMI-OPEN HEADPHONE

*Simple, Light Weight, but Extraordinary*

#### Description

HD672 is equipped with the 50mm specialized precise composite diaphragm. Its balanced frequency response, high sensitivity and low impedance provides perfect sound quality as well as clarity and details.

HD672 can be used with audio devices with a low power output. Equipped with soft composite material earpads, lightweight and durable structure, the HD672 is able to deliver ultimate comfort during long-time usage.

HD672 is the ideal partner for music appreciation and music reproduction. HD672 makes enjoying high quality music reproduction effortless.

#### Features

- Dynamic semi-open headphone
- $\Phi 50\text{mm}$  precise composite diaphragm
- Light weight design
- Studio monitoring grade, precise and balance sound
- Robust structure design

#### The advantage of the composite material earpads

- The high flexibility and softness of the composite material earpads provides best-fit for the ears
- The composite material earpads significantly reduce sound leakage for the best listening experience with more powerful bass (HD671)
- High durability compared to the normal earpads
- Extraordinary noise reduction for excellent ambient noise isolation (HD671)
- Washable pads for easy cleaning
- The soft pads enable very long-time wearing
- Non-toxic design

#### Specifications

|                            |                                    |
|----------------------------|------------------------------------|
| Driver                     | $\phi 50\text{ mm}$ , neodymium    |
| Frequency Response         | 20Hz-20kHz                         |
| Impedence                  | 32 $\Omega$                        |
| Sensitivity                | 95dB (1mW)                         |
| Connector                  | Gold plated 3.5mm stereo mini plug |
| Cable length               | $\phi 3.5 \times 2.5\text{m}$      |
| Headphone Caliper Pressure | 3.5 N                              |

Fitted material,  
no bass leakage

High extension  
High durability

Soft material for  
ultimate comfort  
with glasses

Low clamping force  
under the same  
isolation effect

Washable  
material for easy  
cleaning

Perfect isolation  
for the cold wind
